Hardware Installation

Nebula Registration with the App

Where to find serial number and MAC address

Label on the device

1 Connect an Ethernet cable to the **Internet** port.

2 Connect your PC to the **Ethernet Ports** port.

3 Connect the power adapter to the **Power** port.

4 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

5 Download and install the **Nebula Mobile App** from the Google Play or Apple App Store.

6 Create a Nebula account and site.

7 Add the device to the site.

8 Configure the device settings.

9 Connect your mobile device to the device's **Local Network** (SSID).

10 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

11 Tap **Add Device** to add the device to your site.

12 Tap **Finish** to complete the setup.

13 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White.

14 Connect your mobile device to the device's **Local Network** (SSID).

15 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

16 Tap **Add Device** to add the device to your site.

17 Tap **Finish** to complete the setup.

18 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

19 Connect your mobile device to the device's **Local Network** (SSID).

20 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

21 Tap **Add Device** to add the device to your site.

22 Tap **Finish** to complete the setup.

23 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

24 Connect your mobile device to the device's **Local Network** (SSID).

25 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

26 Tap **Add Device** to add the device to your site.

27 Tap **Finish** to complete the setup.

28 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

29 Connect your mobile device to the device's **Local Network** (SSID).

30 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

31 Tap **Add Device** to add the device to your site.

32 Tap **Finish** to complete the setup.

33 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

34 Connect your mobile device to the device's **Local Network** (SSID).

35 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

36 Tap **Add Device** to add the device to your site.

37 Tap **Finish** to complete the setup.

38 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

39 Connect your mobile device to the device's **Local Network** (SSID).

40 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

41 Tap **Add Device** to add the device to your site.

42 Tap **Finish** to complete the setup.

43 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

44 Connect your mobile device to the device's **Local Network** (SSID).

45 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

46 Tap **Add Device** to add the device to your site.

47 Tap **Finish** to complete the setup.

48 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

49 Connect your mobile device to the device's **Local Network** (SSID).

50 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

51 Tap **Add Device** to add the device to your site.

52 Tap **Finish** to complete the setup.

53 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

54 Connect your mobile device to the device's **Local Network** (SSID).

55 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

56 Tap **Add Device** to add the device to your site.

57 Tap **Finish** to complete the setup.

58 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

59 Connect your mobile device to the device's **Local Network** (SSID).

60 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

61 Tap **Add Device** to add the device to your site.

62 Tap **Finish** to complete the setup.

63 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

64 Connect your mobile device to the device's **Local Network** (SSID).

65 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

66 Tap **Add Device** to add the device to your site.

67 Tap **Finish** to complete the setup.

68 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

69 Connect your mobile device to the device's **Local Network** (SSID).

70 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

71 Tap **Add Device** to add the device to your site.

72 Tap **Finish** to complete the setup.

73 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

74 Connect your mobile device to the device's **Local Network** (SSID).

75 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

76 Tap **Add Device** to add the device to your site.

77 Tap **Finish** to complete the setup.

78 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

79 Connect your mobile device to the device's **Local Network** (SSID).

80 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

81 Tap **Add Device** to add the device to your site.

82 Tap **Finish** to complete the setup.

83 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

84 Connect your mobile device to the device's **Local Network** (SSID).

85 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

86 Tap **Add Device** to add the device to your site.

87 Tap **Finish** to complete the setup.

88 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

89 Connect your mobile device to the device's **Local Network** (SSID).

90 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

91 Tap **Add Device** to add the device to your site.

92 Tap **Finish** to complete the setup.

93 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

94 Connect your mobile device to the device's **Local Network** (SSID).

95 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

96 Tap **Add Device** to add the device to your site.

97 Tap **Finish** to complete the setup.

98 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

99 Connect your mobile device to the device's **Local Network** (SSID).

100 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

101 Tap **Add Device** to add the device to your site.

102 Tap **Finish** to complete the setup.

103 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

104 Connect your mobile device to the device's **Local Network** (SSID).

105 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

106 Tap **Add Device** to add the device to your site.

107 Tap **Finish** to complete the setup.

108 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

109 Connect your mobile device to the device's **Local Network** (SSID).

110 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

111 Tap **Add Device** to add the device to your site.

112 Tap **Finish** to complete the setup.

113 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

114 Connect your mobile device to the device's **Local Network** (SSID).

115 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

116 Tap **Add Device** to add the device to your site.

117 Tap **Finish** to complete the setup.

118 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

119 Connect your mobile device to the device's **Local Network** (SSID).

120 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

121 Tap **Add Device** to add the device to your site.

122 Tap **Finish** to complete the setup.

123 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

124 Connect your mobile device to the device's **Local Network** (SSID).

125 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

126 Tap **Add Device** to add the device to your site.

127 Tap **Finish** to complete the setup.

128 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

129 Connect your mobile device to the device's **Local Network** (SSID).

130 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

131 Tap **Add Device** to add the device to your site.

132 Tap **Finish** to complete the setup.

133 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

134 Connect your mobile device to the device's **Local Network** (SSID).

135 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

136 Tap **Add Device** to add the device to your site.

137 Tap **Finish** to complete the setup.

138 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

139 Connect your mobile device to the device's **Local Network** (SSID).

140 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

141 Tap **Add Device** to add the device to your site.

142 Tap **Finish** to complete the setup.

143 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

144 Connect your mobile device to the device's **Local Network** (SSID).

145 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

146 Tap **Add Device** to add the device to your site.

147 Tap **Finish** to complete the setup.

148 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

149 Connect your mobile device to the device's **Local Network** (SSID).

150 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

151 Tap **Add Device** to add the device to your site.

152 Tap **Finish** to complete the setup.

153 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

154 Connect your mobile device to the device's **Local Network** (SSID).

155 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

156 Tap **Add Device** to add the device to your site.

157 Tap **Finish** to complete the setup.

158 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

159 Connect your mobile device to the device's **Local Network** (SSID).

160 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

161 Tap **Add Device** to add the device to your site.

162 Tap **Finish** to complete the setup.

163 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

164 Connect your mobile device to the device's **Local Network** (SSID).

165 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

166 Tap **Add Device** to add the device to your site.

167 Tap **Finish** to complete the setup.

168 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

169 Connect your mobile device to the device's **Local Network** (SSID).

170 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

171 Tap **Add Device** to add the device to your site.

172 Tap **Finish** to complete the setup.

173 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

174 Connect your mobile device to the device's **Local Network** (SSID).

175 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

176 Tap **Add Device** to add the device to your site.

177 Tap **Finish** to complete the setup.

178 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

179 Connect your mobile device to the device's **Local Network** (SSID).

180 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

181 Tap **Add Device** to add the device to your site.

182 Tap **Finish** to complete the setup.

183 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

184 Connect your mobile device to the device's **Local Network** (SSID).

185 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

186 Tap **Add Device** to add the device to your site.

187 Tap **Finish** to complete the setup.

188 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

189 Connect your mobile device to the device's **Local Network** (SSID).

190 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

191 Tap **Add Device** to add the device to your site.

192 Tap **Finish** to complete the setup.

193 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

194 Connect your mobile device to the device's **Local Network** (SSID).

195 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

196 Tap **Add Device** to add the device to your site.

197 Tap **Finish** to complete the setup.

198 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

199 Connect your mobile device to the device's **Local Network** (SSID).

200 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

201 Tap **Add Device** to add the device to your site.

202 Tap **Finish** to complete the setup.

203 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

204 Connect your mobile device to the device's **Local Network** (SSID).

205 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

206 Tap **Add Device** to add the device to your site.

207 Tap **Finish** to complete the setup.

208 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

209 Connect your mobile device to the device's **Local Network** (SSID).

210 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

211 Tap **Add Device** to add the device to your site.

212 Tap **Finish** to complete the setup.

213 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

214 Connect your mobile device to the device's **Local Network** (SSID).

215 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

216 Tap **Add Device** to add the device to your site.

217 Tap **Finish** to complete the setup.

218 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

219 Connect your mobile device to the device's **Local Network** (SSID).

220 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

221 Tap **Add Device** to add the device to your site.

222 Tap **Finish** to complete the setup.

223 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

224 Connect your mobile device to the device's **Local Network** (SSID).

225 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

226 Tap **Add Device** to add the device to your site.

227 Tap **Finish** to complete the setup.

228 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

229 Connect your mobile device to the device's **Local Network** (SSID).

230 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

231 Tap **Add Device** to add the device to your site.

232 Tap **Finish** to complete the setup.

233 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

234 Connect your mobile device to the device's **Local Network** (SSID).

235 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

236 Tap **Add Device** to add the device to your site.

237 Tap **Finish** to complete the setup.

238 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

239 Connect your mobile device to the device's **Local Network** (SSID).

240 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

241 Tap **Add Device** to add the device to your site.

242 Tap **Finish** to complete the setup.

243 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

244 Connect your mobile device to the device's **Local Network** (SSID).

245 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

246 Tap **Add Device** to add the device to your site.

247 Tap **Finish** to complete the setup.

248 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

249 Connect your mobile device to the device's **Local Network** (SSID).

250 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

251 Tap **Add Device** to add the device to your site.

252 Tap **Finish** to complete the setup.

253 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

254 Connect your mobile device to the device's **Local Network** (SSID).

255 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

256 Tap **Add Device** to add the device to your site.

257 Tap **Finish** to complete the setup.

258 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

259 Connect your mobile device to the device's **Local Network** (SSID).

260 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

261 Tap **Add Device** to add the device to your site.

262 Tap **Finish** to complete the setup.

263 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

264 Connect your mobile device to the device's **Local Network** (SSID).

265 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

266 Tap **Add Device** to add the device to your site.

267 Tap **Finish** to complete the setup.

268 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

269 Connect your mobile device to the device's **Local Network** (SSID).

270 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

271 Tap **Add Device** to add the device to your site.

272 Tap **Finish** to complete the setup.

273 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

274 Connect your mobile device to the device's **Local Network** (SSID).

275 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

276 Tap **Add Device** to add the device to your site.

277 Tap **Finish** to complete the setup.

278 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

279 Connect your mobile device to the device's **Local Network** (SSID).

280 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

281 Tap **Add Device** to add the device to your site.

282 Tap **Finish** to complete the setup.

283 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

284 Connect your mobile device to the device's **Local Network** (SSID).

285 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

286 Tap **Add Device** to add the device to your site.

287 Tap **Finish** to complete the setup.

288 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

289 Connect your mobile device to the device's **Local Network** (SSID).

290 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

291 Tap **Add Device** to add the device to your site.

292 Tap **Finish** to complete the setup.

293 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

294 Connect your mobile device to the device's **Local Network** (SSID).

295 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

296 Tap **Add Device** to add the device to your site.

297 Tap **Finish** to complete the setup.

298 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

299 Connect your mobile device to the device's **Local Network** (SSID).

300 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

301 Tap **Add Device** to add the device to your site.

302 Tap **Finish** to complete the setup.

303 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

304 Connect your mobile device to the device's **Local Network** (SSID).

305 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

306 Tap **Add Device** to add the device to your site.

307 Tap **Finish** to complete the setup.

308 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

309 Connect your mobile device to the device's **Local Network** (SSID).

310 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

311 Tap **Add Device** to add the device to your site.

312 Tap **Finish** to complete the setup.

313 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

314 Connect your mobile device to the device's **Local Network** (SSID).

315 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

316 Tap **Add Device** to add the device to your site.

317 Tap **Finish** to complete the setup.

318 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

319 Connect your mobile device to the device's **Local Network** (SSID).

320 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

321 Tap **Add Device** to add the device to your site.

322 Tap **Finish** to complete the setup.

323 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

324 Connect your mobile device to the device's **Local Network** (SSID).

325 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

326 Tap **Add Device** to add the device to your site.

327 Tap **Finish** to complete the setup.

328 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

329 Connect your mobile device to the device's **Local Network** (SSID).

330 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

331 Tap **Add Device** to add the device to your site.

332 Tap **Finish** to complete the setup.

333 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

334 Connect your mobile device to the device's **Local Network** (SSID).

335 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

336 Tap **Add Device** to add the device to your site.

337 Tap **Finish** to complete the setup.

338 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

339 Connect your mobile device to the device's **Local Network** (SSID).

340 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

341 Tap **Add Device** to add the device to your site.

342 Tap **Finish** to complete the setup.

343 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

344 Connect your mobile device to the device's **Local Network** (SSID).

345 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

346 Tap **Add Device** to add the device to your site.

347 Tap **Finish** to complete the setup.

348 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

349 Connect your mobile device to the device's **Local Network** (SSID).

350 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

351 Tap **Add Device** to add the device to your site.

352 Tap **Finish** to complete the setup.

353 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

354 Connect your mobile device to the device's **Local Network** (SSID).

355 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

356 Tap **Add Device** to add the device to your site.

357 Tap **Finish** to complete the setup.

358 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

359 Connect your mobile device to the device's **Local Network** (SSID).

360 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

361 Tap **Add Device** to add the device to your site.

362 Tap **Finish** to complete the setup.

363 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

364 Connect your mobile device to the device's **Local Network** (SSID).

365 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

366 Tap **Add Device** to add the device to your site.

367 Tap **Finish** to complete the setup.

368 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

369 Connect your mobile device to the device's **Local Network** (SSID).

370 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

371 Tap **Add Device** to add the device to your site.

372 Tap **Finish** to complete the setup.

373 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

374 Connect your mobile device to the device's **Local Network** (SSID).

375 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

376 Tap **Add Device** to add the device to your site.

377 Tap **Finish** to complete the setup.

378 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

379 Connect your mobile device to the device's **Local Network** (SSID).

380 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

381 Tap **Add Device** to add the device to your site.

382 Tap **Finish** to complete the setup.

383 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

384 Connect your mobile device to the device's **Local Network** (SSID).

385 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

386 Tap **Add Device** to add the device to your site.

387 Tap **Finish** to complete the setup.

388 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

389 Connect your mobile device to the device's **Local Network** (SSID).

390 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

391 Tap **Add Device** to add the device to your site.

392 Tap **Finish** to complete the setup.

393 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

394 Connect your mobile device to the device's **Local Network** (SSID).

395 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

396 Tap **Add Device** to add the device to your site.

397 Tap **Finish** to complete the setup.

398 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

399 Connect your mobile device to the device's **Local Network** (SSID).

400 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

401 Tap **Add Device** to add the device to your site.

402 Tap **Finish** to complete the setup.

403 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

404 Connect your mobile device to the device's **Local Network** (SSID).

405 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

406 Tap **Add Device** to add the device to your site.

407 Tap **Finish** to complete the setup.

408 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

409 Connect your mobile device to the device's **Local Network** (SSID).

410 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

411 Tap **Add Device** to add the device to your site.

412 Tap **Finish** to complete the setup.

413 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

414 Connect your mobile device to the device's **Local Network** (SSID).

415 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

416 Tap **Add Device** to add the device to your site.

417 Tap **Finish** to complete the setup.

418 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

419 Connect your mobile device to the device's **Local Network** (SSID).

420 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

421 Tap **Add Device** to add the device to your site.

422 Tap **Finish** to complete the setup.

423 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

424 Connect your mobile device to the device's **Local Network** (SSID).

425 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

426 Tap **Add Device** to add the device to your site.

427 Tap **Finish** to complete the setup.

428 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

429 Connect your mobile device to the device's **Local Network** (SSID).

430 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

431 Tap **Add Device** to add the device to your site.

432 Tap **Finish** to complete the setup.

433 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

434 Connect your mobile device to the device's **Local Network** (SSID).

435 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

436 Tap **Add Device** to add the device to your site.

437 Tap **Finish** to complete the setup.

438 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

439 Connect your mobile device to the device's **Local Network** (SSID).

440 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

441 Tap **Add Device** to add the device to your site.

442 Tap **Finish** to complete the setup.

443 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

444 Connect your mobile device to the device's **Local Network** (SSID).

445 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

446 Tap **Add Device** to add the device to your site.

447 Tap **Finish** to complete the setup.

448 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

449 Connect your mobile device to the device's **Local Network** (SSID).

450 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

451 Tap **Add Device** to add the device to your site.

452 Tap **Finish** to complete the setup.

453 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

454 Connect your mobile device to the device's **Local Network** (SSID).

455 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

456 Tap **Add Device** to add the device to your site.

457 Tap **Finish** to complete the setup.

458 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

459 Connect your mobile device to the device's **Local Network** (SSID).

460 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

461 Tap **Add Device** to add the device to your site.

462 Tap **Finish** to complete the setup.

463 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

464 Connect your mobile device to the device's **Local Network** (SSID).

465 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

466 Tap **Add Device** to add the device to your site.

467 Tap **Finish** to complete the setup.

468 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

469 Connect your mobile device to the device's **Local Network** (SSID).

470 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

471 Tap **Add Device** to add the device to your site.

472 Tap **Finish** to complete the setup.

473 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

474 Connect your mobile device to the device's **Local Network** (SSID).

475 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

476 Tap **Add Device** to add the device to your site.

477 Tap **Finish** to complete the setup.

478 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

479 Connect your mobile device to the device's **Local Network** (SSID).

480 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

481 Tap **Add Device** to add the device to your site.

482 Tap **Finish** to complete the setup.

483 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

484 Connect your mobile device to the device's **Local Network** (SSID).

485 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

486 Tap **Add Device** to add the device to your site.

487 Tap **Finish** to complete the setup.

488 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

489 Connect your mobile device to the device's **Local Network** (SSID).

490 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

491 Tap **Add Device** to add the device to your site.

492 Tap **Finish** to complete the setup.

493 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

494 Connect your mobile device to the device's **Local Network** (SSID).

495 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

496 Tap **Add Device** to add the device to your site.

497 Tap **Finish** to complete the setup.

498 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

499 Connect your mobile device to the device's **Local Network** (SSID).

500 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

501 Tap **Add Device** to add the device to your site.

502 Tap **Finish** to complete the setup.

503 Wait for the **Power** LED to turn solid White and the **Internet** LED to turn solid White or Amber.

504 Connect your mobile device to the device's **Local Network** (SSID).

505 Open the **Nebula Mobile App**, tap **Add Device**, and scan the device's QR code to add it to your Nebula account.

506 Tap **Add Device** to add the device to your site.

507 Tap **Finish** to complete the setup.

508 Wait for the **Power** LED to turn solid White and the **Internet**

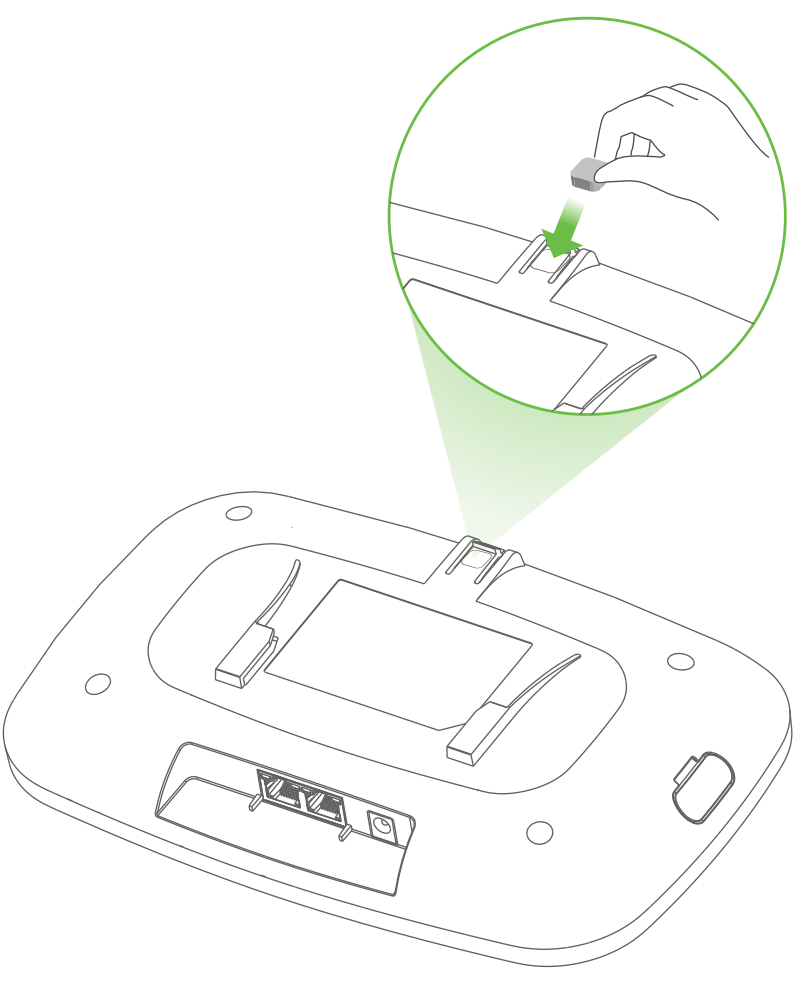
Desk Placement



EN ① Remove the adhesive backing from the rubber pad.
② Align and attach the rubber pad to the gray square to stabilize the Zyxel Device.
③ Place the Zyxel Device on the desk.

DE ① Entfernen Sie die Klebeschicht vom Gummipolster.
② Richten Sie das Gummipolster aus und befestigen Sie es an dem grauen Quadrat, um den Zyxel Device zu stabilisieren.
③ Stellen Sie den Zyxel Device auf den Schreibtisch.

ES ① Retire el respaldo adhesivo de la almohadilla de goma.
② Alinee y acople la almohadilla de goma al cuadrado gris para estabilizar el Zyxel Device.
③ Coloque el Zyxel Device en el escritorio.

FR ① Retirez le support adhésif du tampon en caoutchouc.
② Alignez et fixez le tampon en caoutchouc sur le carré gris pour stabiliser le Zyxel Device.
③ Placez le Zyxel Device sur le bureau.

IT ① Rimuovere la copertura adesiva dal cuscinetto di gomma.
② Allineare e attaccare il cuscinetto di gomma sul quadrato grigio per stabilizzare il Zyxel Device.
③ Mettere il Zyxel Device sul tavolo.

SE ① Ta bort den självhäftande baksidan från gummikudden.
② Rikta in och fäst gummikudden på den grå fyrkanten för att stabilisera Zyxel Device.
③ Placera Zyxel Device på skrivbordet.

CZ ① Z gumové podložky sundejte zadní adhezivní vrstvu.
② Stabilizujte zařízení Zyxel Device zarovnáním a připevněním gumové podložky k šedivému čtverci.
③ Položte zařízení Zyxel Device na stůl.

HU ① Távolítsa el a gumipárna öntapadós felületéről a fóliát.
② Illessze a gumipárnát a szürke négyszögre, hogy stabilizálja az Zyxel Device egységet.
③ Helyezze az Zyxel Device egységet az asztalra.

PL ① Usunąć samoprzylepny podkład z podkładki gumowej.
② Wyrównać i przymocować gumową podkładkę do szarego prostokąta w celu stabilizacji urządzenia Zyxel Device.
③ Umieścić urządzenie Zyxel Device na biurku.

RO ① Îndepărtați folia adezivă de protecție de pe plăcuța de cauciuc.
② Aliniați și lipiți plăcuța de cauciuc pe zona pătrată gri pentru a stabiliza Zyxel Device.
③ Puneți Zyxel Device pe birou.

SK ① Z gumovej podložky odstráňte zadnú adhezívnu vrstvu.
② Stabilizujte zariadenie Zyxel Device zarovnaním a pripevnením gumovej podložky k šedivému štvorcu.
③ Položte zariadenie Zyxel Device na stôl.

SI ① Lepilno podlago odstranite z gumijasto blazinico.
② Gumijasto blazinico povežite in pritrdite na siv kvadrat in stabilizirajte Zyxel Device.
③ Zyxel Device namestite na mizo.

BG ① Свалете покритието на залепващата лента на гумената подложка.
② Изравнете и прикачете гумената подложка към сивото квадратче, за да стабилизирате Zyxel Device.
③ Поставете Zyxel Device на бюрото.

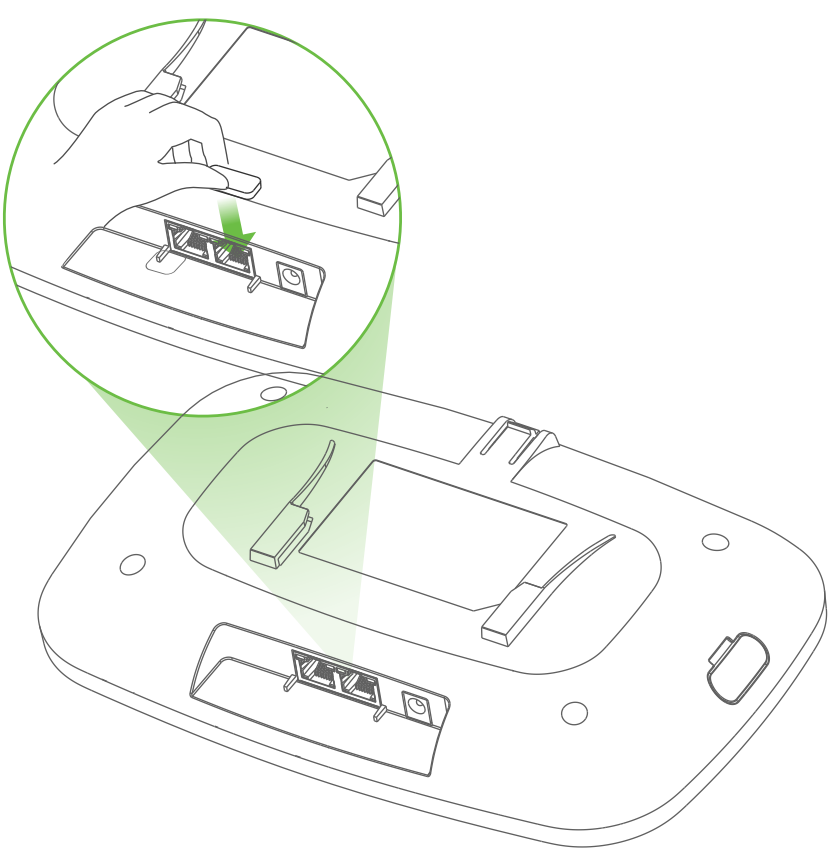
RU ① Снимите клейкую пленку с резиновой подкладки.
② Совместите и прикрепите резиновую подкладку к серому квадрату, чтобы обеспечить устойчивость Zyxel Device.
③ Установите Zyxel Device на столе.

UA ① Зніміть клейку підкладку з гумової прокладки.
② Сумістіть та прикріпіть гумову прокладку до сірого квадрату, щоб забезпечити стійкість Zyxel Device.
③ Розташуйте Zyxel Device на столі.

简中 ① 去除橡胶垫上的胶贴。
② 将橡胶垫对准灰色方块并安装，固定 Zyxel Device。
③ 将 Zyxel Device 置于桌面上。

繁中 ① 撕開橡膠墊的背膠貼紙。
② 將橡膠墊對齊灰色方塊並安裝，可固定 Zyxel Device。
③ 將 Zyxel Device 放在桌面上。

Attaching the Connection Stabilization Pad (Optional)



EN ① Remove the adhesive backing from the rubber pad.
② Attach the rubber pad in front of the **UPLINK** port. This keeps the Ethernet cable steady for a stable connection speed.

DE ① Entfernen Sie die Klebeschicht vom Gummipolster.
② Bringen Sie die Gummitülle vor dem **UPLINK**-Port an. Dies hält das Ethernet-Kabel stabil für eine stabile Verbindungsgeschwindigkeit.

ES ① Retire el respaldo adhesivo de la almohadilla de goma.
② Fije la almohadilla de goma frente al puerto **UPLINK**. Esto mantiene fijo el cable Ethernet para una velocidad de conexión estable.

FR ① Retirez le support adhésif du tampon en caoutchouc.
② Fixez le tampon en caoutchouc devant le port **UPLINK**. Cela permet de maintenir le câble Ethernet stable et donc une vitesse de connexion stable.

IT ① Rimuovere la copertura adesiva dal cuscinetto di gomma.
② Fissare il cuscinetto di gomma davanti alla porta **UPLINK**. Ciò mantiene il cavo Ethernet stabile per una velocità di connessione stabile.

SE ① Ta bort den självhäftande baksidan från gummikudden.
② Fäst gummidynan framför **UPLINK**-porten. Detta bibehåller Ethernet-kabeln stadig för en stabil anslutningshastighet.

CZ ① Z gumové podložky sundejte zadní adhezivní vrstvu.
② Připevněte gumovou podložku před **UPLINK** port. Toto udržuje ethernetový kabel stabilně zafixovaný pro bezvýpadkový provoz.

HU ① Távolítsa el a gumipárna öntapadós felületéről a fóliát.
② Csatlakoztassa a gumi párnát az **UPLINK** port elé. Ez stabilan tartja az Ethernet kábelt a stabil csatlakozási sebesség érdekében.

PL ① Usunąć samoprzylepny podkład z podkładki gumowej.
② Zamocuj gumową podkładkę przed portem **UPLINK**. Pomoże to w utrzymaniu kabla sieciowego na miejscu i ustabilizuje szybkość połączenia.

RO ① Îndepărtați folia adezivă de protecție de pe plăcuța de cauciuc.
② Montati garnitura de cauciuc in fata portului de **UPLINK**. Montarea acesteia va ajuta si la fixarea cablului de internet si evitarea unor eventuale scaderi de viteza din cauza conexiuniii instabile.

SK ① Z gumovej podložky odstráňte zadnú adhezívnu vrstvu.
② Pripevnite gumovú podložku pred **UPLINK** port. Tá udržuje ethernetový kábel zafixovaný pre stabilné fungovanie.

SI ① Lepilno podlago odstranite z gumijasto blazinico
② Pritrdite gumijasto podlogo pred vrata **UPLINK**. To ohranja ethernetni kabel stabilen za stabilno hitrost povezave.

BG ① Свалете покритието на залепващата лента на гумената подложка.
② Прикрепете гумената планка пред **UPLINK** порта. Това осигурява неподвижност на Етернет кабела и стабилна скорост на връзката.

RU ① Снимите клейкую пленку с резиновой подкладки.
② Прикрепите резиновую прокладку перед портом **UPLINK**. Это обеспечивает устойчивость кабеля Ethernet для стабильной скорости соединения.

UA ① Зніміть клейку підкладку з гумової прокладки.
② Закріпіть гумову прокладку перед портом **UPLINK**. Це забезпечує стабільність кабелю Ethernet для стабільної швидкості з'єднання.

简中 ① 去除橡胶垫上的胶贴。
② 将橡胶垫固定到 **UPLINK** 端口前。这有助于稳固以太网线缆，实现稳定的连接速度。

繁中 ① 撕開橡膠墊的背膠貼紙。
② 將橡膠墊黏在 **UPLINK** 埠前方。這有助於乙太網路線保持穩固，以提供穩定的連線速度。
